NXP today also announced that it received a request for additional information and documentary materials from the United States Federal Trade Commission ("FTC") in connection with NXP's pending merger with Freescale. Frequently referred to as a "second request," this is a standard part of the FTC review process and was anticipated by NXP. The effect of the second request is to extend the waiting period imposed by the HSR Act until 30 days after NXP has substantially complied with the request, unless that period is extended voluntarily by both parties or terminated sooner by the FTC. NXP will continue to work closely and cooperatively with the FTC as it conducts its review of the proposed merger.

In addition to the expiration or termination of the waiting period under the HSR Act, completion of the merger remains subject to obtaining antitrust and other regulatory approvals in certain other jurisdictions, approval of the NXP and Freescale shareholders and other customary closing conditions. NXP continues to expect the merger to close in the second half of calendar year 2015.
