NXP Semiconductors Reports Second Quarter 2016 Results

	Q2 2016
Revenue	\$2.365 billion
GAAP Gross margin	46.5%
GAAP Operating margin	(1.1%)
GAAP Diluted earnings per share	(\$0.04)
Non-GAAP Gross margin	50.0%
Non-GAAP Operating margin	25.6%
Non-GAAP Diluted earnings per share	\$1.39

EINDHOVEN, The Netherlands, July 28, 2016 – NXP Semiconductors N.V. (NASDAQ: NXPI) today reported financial results for the second quarter 2016, ended July 3, 2016, and provided guidance for the third quarter of 2016.

“NXP delivered solid results for the second quarter of 2016, with revenue at \$2.37 billion, an increase of 57 percent year on year, an increase of 6 percent versus the prior quarter and \$20 million above the mid-point of our guidance. HPMS segment revenue was \$2.01 billion, an increase of 76 percent year-on-year, and an increase of approximately 5 percent from the prior quarter. Standard Product segment revenue was \$303 million, a decrease of 6 percent year-on-year and an increase of 11 percent from the prior quarter. Our GAAP diluted net loss per share was (\$0.04), primarily due to merger-related accounting, and our non-GAAP diluted earnings per share of \$1.39 was near the high end of our guidance, as a result of positive fall through on incrementally higher revenue and good operating expense control. During the quarter, we repaid \$100 million of debt and we returned cash to shareholders, by repurchasing \$365 million or approximately 4.3 million shares of our stock,” said Richard Clemmer, NXP Chief Executive Officer.

“On a comparable basis, taking into account the Freescale merger and product line divestures, our year-on-year revenue trends reflect the semiconductor industry weakness that accelerated throughout the second half of 2015. On a comparable basis, total revenue was down approximately 8 percent year on year, notwithstanding our Automotive operating segment which delivered positive year-on-year comparable growth. We believe we have begun to see incremental positive trends in a number of our businesses, with comparable sequential revenue up approximately 6 percent into the second quarter. While we anticipate many of the headwinds experienced in the second half of 2015 should begin to generally subside in the coming quarters, the overall demand environment currently continues to be subdued.

“In summary, I am pleased with the progress we continue to achieve. In the second quarter we took another step in our journey, as we announced the divestiture of our Standard Products business. We continue to anticipate the transaction to close in the first quarter of 2017. I would like to thank all of the members of the Standard Products business for their years of hard work and dedication,” said Clemmer.

Summary of Reported Second Quarter 2016 Results (\$ millions, except diluted EPS, unaudited)

	Q2 2016	Q1 2016	Q2 2015	Q - Q	Y - Y
Product Revenue	\$2,317	\$2,185	\$1,468	6.0%	57.8%
Corporate & Other	\$ 48	\$ 39	\$ 38	23.1%	26.3%

Non-GAAP EPS	\$ 1.39	\$ 1.14	\$ 1.44	21.9%	-3.5%

(1) Please see “Non-GAAP Financial Measures” on page 4 of this release

Additional Information for the Second Quarter 2016:

- In recent months the U.S. Securities and Exchange Commission (“SEC”) has increased its focus on the general use of non-GAAP financial metrics and reporting by U.S. listed companies. In May 2016, the SEC issued new and revised Compliance & Disclosure Interpretations that relate to the reporting of non-GAAP financial measures by all U.S. listed companies (www.sec.gov/divisions/corpfin/guidance/nongaapinterp.htm). As a result, NXP has re-evaluated its use of non-GAAP financial information, to ensure that when used in conjunction with its reported GAAP results, its non-GAAP financial information provides a clear reflection of the underlying operational performance of NXP. Starting for the third quarter of 2016, NXP will limit its forward guidance to the following GAAP financial information; Revenue, Gross Profit, Operating Income, Financial Income and Expense, Non-Controlling Interest and Net Cash Paid for Income Taxes. In addition, NXP will limit the non-GAAP financial measures in its forward guidance and subsequent results to non-GAAP Gross Profit, non-GAAP Operating Income, and non-GAAP Financial Income and Expense.
- On April 27, 2016, NXP redeemed \$100 million aggregate principal amount of its 3.5% senior notes due 2016, which left \$200 million outstanding.
- On May 23, 2016, NXP issued and sold \$850 million aggregate principal amount of 4.125% senior unsecured notes due 2021 and \$900 million aggregate principal amount of 4.625% senior unsecured notes due 2023. NXP used the net proceeds from the offering of the notes and cash on hand to repay \$1,250 million aggregate principal amount of its existing secured term loan B due 2020 and \$500 million aggregate principal amount of its outstanding senior secured notes due 2021
- A loss of \$23 million relative to the early extinguishment of debt was recognized in relation to the aforementioned financing activities.
- On June 14, 2016 NXP announced that it had reached an agreement to divest its Standard Products business to a consortium of financial investors consisting of Beijing Jianguang Asset Management Co., Ltd (“JAC Capital”) and Wise Road Capital LTD (“Wise Road Capital”). Under the terms of the agreement the consortium will pay approximately \$2.75 billion for the business. The transaction is expected to close in the first quarter of 2017, pending all required regulatory approvals and employee representative consultations.
- During the second quarter of 2016, SSMC, NXP’s consolidated joint-venture wafer fab with TSMC, reported second quarter 2016 operating income of \$37 million, EBITDA of \$51 million and a closing cash balance of \$555 million.
- During the second quarter of 2016, utilization in the combined NXP wafer-fabs averaged 91 percent.
- During the second quarter of 2016, NXP repurchased approximately 4.33 million shares for a total cost of approximately \$365 million. Weighted average number of shares outstanding (after deduction of treasury shares) for the three month period ended July 3, 2016 was 341.3 million and as the company reported a net loss, it excludes the incremental impact of dilutive potential common shares of 8.1 million.

Supplemental Information (\$ millions, unaudited) (1, 2, 3, 4)

Total Revenue	\$ 2,365	\$ 2,224	\$ 1,506	\$ 2,563	6%	57%	6%	-8%

Note:

- As a result of the Freescale Semiconductor ("Freescale") Merger, NXP has included previously reported Freescale product group revenue into its various existing High Performance Mixed Signal (HPMS) and Standard Products (STDP) segments. As of the fourth quarter 2015, the NXP HPMS business lines include the following (1) Automotive, which includes revenue from Freescale's Automotive MCU and Analog & Sensor product groups; (2) Secure Connected Devices, which includes revenue from Freescale's Microcontroller product group; and (3) Secure Interface & Infrastructure, previously known as Secure Interface & Power which includes revenue from Freescale's Digital Networking and RF product groups. Additionally, certain portions of Freescale's Analog & Sensor product group and Other revenue is apportioned to various NXP business lines consistent with NXP's prior product and revenue classification approach, this included product-functionality alignment as well as intellectual property (IP) sales and licensing revenue.
- The preceding table sets forth our unaudited combined adjusted quarterly financial information, including estimates of segment and relative business line allocations, for the three month periods ended July 5, 2015 in addition to the as reported information for the three month periods ended July 3, 2016, April 3, 2016 and July 5, 2015. This combined adjusted financial information has been derived from the audited consolidated financial statements of NXP for the years ended December 31, 2015 and the unaudited condensed consolidated financial statements of Freescale for the period ended July 3, 2015. In each case, we have excluded revenue generated in our RF Power business, which was divested in connection with the closing of the Freescale Merger on December 7, 2015, and our Bi-Polar business, which was divested on November 9, 2015 but have not otherwise made adjustments to the historical figures. In addition, the preceding information does not give effect to the financial impact on our statement of operations for any other acquisitions or divestitures made by NXP or Freescale during the periods presented.

The unaudited combined adjusted financial information and segment allocation in the preceding table represent NXP management's current estimate of the combined financial information based on historical financial information of NXP and Freescale. This unaudited combined adjusted financial information has been presented for informational purposes only and is not necessarily indicative of what the combined company's results of operations actually would have been had the Freescale Merger been completed as of the dates indicated. In addition, the unaudited combined adjusted financial information does not purport to project the future financial position or results of operations of the combined company and do not reflect synergies that might be achieved from the combined operations.

The unaudited combined adjusted financial information in the preceding table has not been prepared in accordance with the requirements of Regulation S-X of the U.S. Securities Act or US GAAP. Neither the assumptions underlying the adjustments nor the resulting adjusted financial information have been audited or reviewed in accordance with any generally accepted auditing standards. The information presented should be read in conjunction with the historical consolidated financial statements of NXP and Freescale, which are filed with the SEC.
- Combined adjusted revenue is the combined consolidated revenue of NXP and Freescale for each of the quarterly periods presented. The information excludes the divestment of previously announced business and the creation of joint-ventures. The unaudited adjusted financial information has been prepared for comparative purposes only and does not purport to be indicative of the revenue performance that would have been achieved had the acquisition taken place at the beginning of the periods shown. In addition, this information is not intended to be a projection of future results from the combined operations.
- Combined adjusted product revenue is the combination of revenue from the High Performance Mixed Signal (HPMS) and Standard Products (STDP) segments. Percent of quarterly total amounts may not add to 100 percent due to rounding

Guidance for the Third Quarter 2016: (\$ millions)₍₁₎

	Guidance Range						
	GAAP			Reconciliation	non-GAAP		
	Low	Mid	High		Low	Mid	High

Financial income (expense)	\$ (100)	\$ (100)	\$ (100)	\$ (12)	\$ (88)	\$ (88)	\$ (88)

Note (1) Additional Information:

- GAAP Gross Profit includes Purchase Price Accounting (“PPA”) effects, (\$58 million); Stock Based Compensation, (\$12 million); Other Incidentals, \$16 million;
- GAAP Operating Profit includes PPA effects, (\$407 million); Restructuring, (\$25 million); Stock Based Compensation, (\$80 million); Merger related costs (\$25 million); Other Incidentals, \$16 million;

3. GAAP Financial Income (expense) includes PPA effects \$3 million; Non-cash interest expense on convertible notes, (\$10 million); Other financial expense (\$5 million);
4. Net cash paid for income taxes is expected to be between (\$17 million) and (\$19 million);
5. Non-controlling interest is expected to be between (\$14 million) and (\$16 million);

NXP has based the guidance included in this release on judgments and estimates that management believes are reasonable given its assessment of historical trends and other information reasonably available as of the date of this release. Please note, the guidance included in this release consists of predictions only, and is subject to a wide range of known and unknown risks and uncertainties, many of which are beyond NXP's control. The guidance included in this release should not be regarded as representations by NXP that the estimated results will be achieved. Actual results may vary materially from the guidance we provide today. In relation to the use of non-GAAP financial information see the note regarding "Non-GAAP Financial Measures" below. For the factors, risks and uncertainties to which judgments, estimates and forward-looking statements generally are subject see the note regarding "Forward-looking Statements." We undertake no obligation to publicly update or revise any forward-looking statements, including the guidance set forth herein, to reflect future events or circumstances.

Non-GAAP Financial Measures

In managing NXP's business on a consolidated basis, management develops an annual operating plan, which is approved by our Board of Directors, using non-GAAP financial measures. In measuring performance against this plan, management considers the actual or potential impacts on these non-GAAP financial measures from actions taken to reduce costs with the goal of increasing our gross margin and operating margin and when assessing appropriate levels of research and development efforts. In addition, management relies upon these non-GAAP financial measures when making decisions about product spending, administrative budgets, and other operating expenses. We believe that these non-GAAP financial measures, when coupled with the GAAP results and the reconciliations to corresponding GAAP financial measures, provide a more complete understanding of the Company's results of operations and the factors and trends affecting NXP's business. We believe that they enable investors to perform additional comparisons of our operating results, to assess our liquidity and capital position and to analyze financial performance excluding the effect of expenses unrelated to operations, certain non-cash expenses and share-based compensation expense, which may obscure trends in NXP's underlying performance. This information also enables investors to compare financial results between periods where certain items may vary independent of business performance, and allow for greater transparency with respect to key metrics used by management.

These non-GAAP financial measures are provided in addition to, and not as a substitute for, or superior to, measures of financial performance prepared in accordance with GAAP. The presentation of these and other similar items in NXP's non-GAAP financial results should not be interpreted as implying that these items are non-recurring, infrequent or unusual. Reconciliations of these non-GAAP measures to the most comparable measures calculated in accordance with GAAP are provided in the financial statements portion of this release in a schedule entitled "Financial Reconciliation of GAAP to non-GAAP Results (unaudited)." Please refer to the NXP Historic Financial Model file found on the Financial Information page of the Investor Relations section of our website at www.nxp.com/investor for additional information related to our rationale for using these non-GAAP financial measures, as well as the impact of these measures on the presentation of NXP's operations.

In addition to providing financial information on a basis consistent with U.S. generally accepted accounting principles ("GAAP"), NXP also provides the following selected financial measures on a non-GAAP basis: (i) Gross profit, (ii) Gross margin, (iii) Research and development, (iv) Selling, general and administrative, (v) Other income, (vi) Operating income (loss), (vii) Operating margin, (viii) Financial Income (expense), (ix) Cash tax expense (x) Results relating to equity-accounted investees, (xi) Net income (loss), (xii) Net income (loss) attributable to stockholders, (xiii) Weighted average shares –diluted, (xiv) Diluted net income (loss) attributable to stockholders per share, (xv) EBITDA, adjusted EBITDA and trailing 12 month adjusted EBITDA, and (xvi) non-GAAP free cash flow. The non-GAAP information excludes the amortization of acquisition related intangible assets, the purchase accounting effect on inventory and property, plant and equipment, merger related costs (including integration costs), certain items related to divestitures, share-based compensation expense, restructuring and asset impairment charges, non-cash interest expense on convertible notes, extinguishment of debt, changes in the fair value of the warrant liability prior to January 1, 2016, foreign exchange gains and losses and the non-cash impact on income tax expense.

Conference Call and Webcast Information

NXP will host a conference call on July 28, 2016 at 8:00 a.m. U.S. Eastern Time (2:00 p.m. Central European Time) to discuss its second quarter 2016 results and provide an outlook for the third quarter of 2016.

Interested parties may join the conference call by dialing 1 – 888 – 603 – 7644 (within the U.S.) or 1 – 484 – 747 - 6631 (outside of the U.S.). The participant pass-code is 48769210. To listen to a webcast of the event, please visit the Investor Relations section of the NXP website at www.nxp.com/investor. The webcast will be recorded and available for replay shortly after the call concludes.

About NXP Semiconductors

NXP Semiconductors N.V. (NASDAQ: NXPI) enables secure connections and infrastructure for a smarter world, advancing solutions that make lives easier, better and safer. As the world leader in secure connectivity solutions for embedded applications, NXP is driving innovation in the secure connected vehicle, end-to-end security & privacy and smart connected solutions markets. Built on more than 60 years of combined experience and expertise, the company has 44,000 employees in more than 35 countries and posted revenue of \$6.1 billion in 2015. Find out more at www.nxp.com.

Forward-looking Statements

This document includes forward-looking statements which include statements regarding NXP's business strategy, financial condition, results of operations, and market data, as well as any other statements which are not historical facts. By their nature, forward-looking statements are subject to numerous factors, risks and uncertainties that could cause actual outcomes and results to be materially different from those projected. These factors, risks and uncertainties include the following: market demand and semiconductor industry conditions; the ability to successfully introduce new technologies and products; the end-market demand for the goods into which NXP's products are incorporated; the ability to generate sufficient cash, raise sufficient capital or refinance corporate debt at or before maturity; the ability to meet the combination of corporate debt service, research and development and capital investment requirements; the ability to accurately estimate demand and match manufacturing production capacity accordingly or obtain supplies from third-party producers; the access to production capacity from third-party outsourcing partners; any events that might affect third-

party business partners or NXP's relationship with them; the ability to secure adequate and timely supply of equipment and materials from suppliers; the ability to avoid operational problems and product defects and, if such issues were to arise, to correct them quickly; the ability to form strategic partnerships and joint ventures and to successfully cooperate with alliance partners; the ability to win competitive bid selection processes to develop products for use in customers' equipment and products; the ability to successfully establish a brand identity; the ability to successfully hire and retain key management and senior product architects; and, the ability to maintain good relationships with our suppliers. In addition, this document contains information concerning the semiconductor industry and NXP's business segments generally, which is forward-looking in nature and is based on a variety of assumptions regarding the ways in which the semiconductor industry, NXP's market segments and product areas may develop. NXP has based these assumptions on information currently available, if any one or more of these assumptions turn out to be incorrect, actual market results may differ from those predicted. While NXP does not know what impact any such differences may have on its business, if there are such differences, its future results of operations and its financial condition could be materially adversely affected. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak to results only as of the date the statements were made. Except for any ongoing obligation to disclose material information as required by the United States federal securities laws, NXP does not have any intention or obligation to publicly update or revise any forward-looking statements after we distribute this document, whether to reflect any future events or circumstances or otherwise. For a discussion of potential risks and uncertainties, please refer to the risk factors listed in our SEC filings. Copies of our SEC filings are available on our Investor Relations website, www.nxp.com/investor or from the SEC website, www.sec.gov.
