## **NXP Semiconductors Announces Quarterly Dividend**

**EINDHOVEN, The Netherlands, May 30, 2024** – As part of its ongoing capital return program, NXP Semiconductors N.V. (NASDAQ: NXPI) today announced that its board of directors has approved the payment of an interim dividend. The actions are based on the continued and significant strength of the NXP capital structure, and the board's confidence in the company's ability to drive long-term growth and strong cash flow.

The board of directors has approved the payment of an interim dividend of \$1.014 per ordinary share for the second quarter of 2024. The interim dividend will be paid in cash on July 10, 2024 to shareholders of record as of June 13, 2024.

### **Taxation – Cash Dividends**

Cash dividends will be subject to the deduction of Dutch dividend withholding tax at the rate of 15 percent, which may be reduced in certain circumstances. Non-Dutch resident shareholders, depending on their circumstances, may be entitled to a full or partial refund of Dutch dividend withholding tax. If you are uncertain as to the tax treatment of any dividends, consult your tax advisor.

### **About NXP Semiconductors**

NXP Semiconductors N.V. (NASDAQ: NXPI) is the trusted partner for innovative solutions in the automotive, industrial & IoT, mobile, and communications infrastructure markets. NXP's "Brighter Together" approach combines leading-edge technology with pioneering people to develop system solutions that make the connected world better, safer, and more secure. The company has operations in more than 30 countries and posted revenue of \$13.28 billion in 2023. Find out more at [www.nxp.com](http://www.nxp.com).

### **Forward-looking Statements**

This document includes forward-looking statements which include statements regarding NXP's interim dividend and financial condition, as well as any other statements which are not historical facts. By their nature, forward-looking statements are subject to numerous factors, risks and uncertainties that could cause actual outcomes and results to be materially different from those projected. These factors, risks and uncertainties include the following: market demand and semiconductor industry conditions; our ability to successfully introduce new technologies and products; the demand for the goods into which NXP's products are incorporated; trade disputes between the U.S. and China, potential increase of barriers to international trade and resulting disruptions to NXP's established supply chains; the impact of government actions and regulations, including restrictions on the export of US-regulated products and technology; the ability to generate sufficient cash, raise sufficient capital or refinance corporate debt at or before maturity to meet both NXP's debt service and research and development and capital

investment requirements; our ability to accurately estimate demand and match our production capacity accordingly or obtain supplies from third-party producers to meet demand; our access to production capacity from third-party outsourcing partners, and any events that might affect their business or NXP's relationship with them; our ability to secure adequate and timely supply of equipment and materials from suppliers; our ability to avoid operational problems and product defects and, if such issues were to arise, to correct them quickly; our ability to form strategic partnerships and joint ventures and to successfully cooperate with our alliance partners; our ability to win competitive bid selection processes; our ability to develop products for use in customers' equipment and products; the ability to successfully hire and retain key management and senior product engineers; the invasion of Ukraine by Russia and resulting regional instability, sanctions and any other retaliatory measures taken against Russia and the continued hostilities and the armed conflict in the Middle East, which could adversely impact the global supply chain, disrupt our operations or negatively impact the demand for our products in our primary end markets; and, the ability to maintain good relationships with NXP's suppliers. In case tax laws change, this could have an effect on our estimated effective tax rates. In addition, this document contains information concerning the semiconductor industry, our end markets and business generally, which is forward-looking in nature and is based on a variety of assumptions regarding the ways in which the semiconductor industry, our end markets and business will develop. NXP has based these assumptions on information currently available, if any one or more of these assumptions turn out to be incorrect, actual results may differ from those predicted. While NXP does not know what impact any such differences may have on its business, if there are such differences, its future results of operations and its financial condition could be materially adversely affected. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak to results only as of the date the statements were made. Except for any ongoing obligation to disclose material information as required by the United States federal securities laws, NXP does not have any intention or obligation to publicly update or revise any forward-looking statements after we distribute this document, whether to reflect any future events or circumstances or otherwise. For a discussion of potential risks and uncertainties, please refer to the risk factors listed in our SEC filings. Copies of our SEC filings are available on our Investor Relations website, [www.nxp.com/investor](http://www.nxp.com/investor) or from the SEC website, [www.sec.gov](http://www.sec.gov).
