### **NXP Semiconductors Reports Third Quarter 2023 Results**

**EINDHOVEN, The Netherlands, November 6, 2023 –** NXP Semiconductors N.V. (NASDAQ: NXPI) today reported financial results for the third guarter, ended October 1, 2023.

"NXP delivered quarterly revenue of \$3.43 billion, \$34 million above the midpoint of guidance. Revenue trends in our Mobile, Industrial & IoT and Automotive end-markets all performed in-line or better than anticipated, while our Communication Infrastructure & Other end market was slightly below our expectations. The combination of our third quarter results, and the mid-point of our fourth quarter guidance indicates revenue for the full year 2023 will be flat versus 2022 in a challenging and cyclical market environment," said Kurt Sievers, NXP President and Chief Executive Officer.

#### **Key Highlights for the Third Quarter 2023:**

- Revenue was \$3.43 billion, down 0.3 percent year-on-year;
- GAAP gross margin was 57.2 percent, GAAP operating margin was 28.9 percent and GAAP diluted Net Income per Share was \$3.01:
- Non-GAAP gross margin was 58.5 percent, non-GAAP operating margin was 35.0 percent, and non-GAAP diluted Net Income per Share was \$3.70;
- Cash flow from operations was \$988 million, with net capex investments of \$200 million, resulting in non-GAAP free cash flow of \$788 million;
- During the third quarter of 2023, NXP continued to execute its capital return policy with the payment of \$262 million in cash dividends, and the repurchase of \$306 million of its common shares. The total capital return of \$568 million in the quarter represented 72 percent of third quarter non-GAAP free cash flow. The interim dividend for the third quarter 2023 was paid in cash on October 5, 2023 to shareholders of record as of September 13, 2023. Subsequent to the end of the third quarter, between October 2, 2023 and November 3, 2023, NXP executed via a 10b5-1 program additional share repurchases totaling \$124 million;
- On August 4, 2023, Semiconductor industry players Bosch, Infineon, Nordic Semiconductor, NXP, and Qualcomm Technologies, announced the planned formation of a joint-venture aimed at advancing the adoption of RISC-V globally;
- On August 8, 2023, TSMC, Bosch, Infineon, and NXP announced the planned formation of a joint venture European Semiconductor Manufacturing Company (ESMC) GmbH, in Dresden, Germany to provide advanced semiconductor manufacturing services predominantly to the automotive and industrial sectors. The planned 300mm fab joint venture will be 70% owned by TSMC, with Bosch, Infineon, and NXP each holding 10% equity stake; and
- On September 19, 2023 NXP announced it is strengthening its European research and development (R&D) through grants to be
  provided via the 2nd Important Project of Common European Interest on Microelectronics and Communication Technologies (IPCEI
  ME/CT). Dedicated NXP teams across Austria, Germany, the Netherlands and Romania will drive innovation including 5nm design
  for the Software Defined Vehicle, radar and battery management systems in automotive, and Ultra-Wideband as well as artificial
  intelligence (AI), RISC-V and post-quantum cryptography.

### 1. Additional Information for the Third Quarter 2023:

- i. For an explanation of GAAP to non-GAAP adjustments, please see "Non-GAAP Financial Measures".
   ii. We have reclassified certain amounts related to customer programs previously presented in "Accounts Payable" to "Other current liabilities" to conform to current period presentation. The impact of the reclassification on DPO (decreasing impact) and CCC (increasing impact) was 27 days for the third quarter of 2022.
- iii. Gross financial leverage is defined as gross debt divided by trailing twelve months adjusted EBITDA.
- iv. Net financial leverage is defined as net debt divided by trailing twelve months adjusted EBITDA.
- v. Weighted average number of diluted shares for the three-month period ended October 1, 2023 was 261.1 million.

### Guidance for the Fourth Quarter 2023: (\$ millions, except Per Share data) (1)

#### Note (1) Additional Information:

- 1. GAAP Gross Profit is expected to include Purchase Price Accounting ("PPA") effects, \$(13) million; Share-based Compensation, \$(14) million; Other Incidentals, \$(21) million:
- 2. GAAP Operating Income (loss) is expected to include PPA effects, \$(77) million; Share-based Compensation, \$(106) million; Restructuring and Other Incidentals, \$(28) million:
- 3. GAAP Financial Income (expense) is expected to include Other financial expense \$(8) million;
- 4. GAAP Non-Controlling Interest (NCI) and Other includes non-controlling interest \$(s) million and Other \$(3) million;
- 5. GAAP diluted EPS is expected to include the adjustments noted above for PPA effects, Share-based Compensation, Restructuring and Other Incidentals in GAAP Operating Income (loss), the adjustment for Other financial expense, the adjustment for Non-controlling interest & Other and the adjustment on Tax due to the earlier mentioned adjustments.

NXP has based the guidance included in this release on judgments and estimates that management believes are reasonable given its assessment of historical trends and other information reasonably available as of the date of this release. Please note, the guidance included in this release consists of predictions only, and is subject to a wide range of known and unknown risks and uncertainties, many of which are beyond NXP's control. The guidance included in this release should not be regarded as representations by NXP that the estimated results will be achieved. Actual results may vary materially from the guidance we provide today. In relation to the use of non-GAAP financial information see the note regarding "Non-GAAP Financial Measures" below. For the factors, risks, and uncertainties to which judgments, estimates and forward-looking statements generally are subject see the note regarding "Forward-looking Statements." We undertake no obligation to publicly update or revise any forward-looking statements, including the guidance set forth herein, to reflect future events or circumstances.

#### **Non-GAAP Financial Measures**

In managing NXP's business on a consolidated basis, management develops an annual operating plan, which is approved by our Board of Directors, using non-GAAP financial measures, that are not in accordance with, nor an alternative to, U.S. generally accepted accounting principles ("GAAP"). In measuring performance against this plan, management considers the actual or potential impacts on these non-GAAP financial measures from actions taken to reduce costs with the goal of increasing our gross margin and operating margin and when assessing appropriate levels of research and development efforts. In addition, management relies upon these non-GAAP financial measures when making decisions about product spending, administrative budgets, and other operating expenses. We believe that these non-GAAP financial measures, when coupled with the GAAP results and the reconciliations to corresponding GAAP financial measures, provide a more complete understanding of the Company's results of operations and the factors and trends affecting NXP's business. We believe that they enable investors to perform additional comparisons of our operating results, to assess our liquidity and capital position and to analyze financial performance excluding the effect of expenses unrelated to operations, certain non-cash expenses and share-based compensation expense, which may obscure trends in NXP's underlying performance. This information also enables investors to compare financial results between periods where certain items may vary independent of business performance, and allow for greater transparency with respect to key metrics used by management.

These non-GAAP financial measures are provided in addition to, and not as a substitute for, or superior to, measures of financial performance prepared in accordance with GAAP. The presentation of these and other similar items in NXP's non-GAAP financial results should not be interpreted as implying that these items are non-recurring, infrequent, or unusual. Reconciliations of these non-GAAP measures to the most comparable measures calculated in accordance with GAAP are provided in the financial statements portion of this release in a schedule entitled "Financial Reconciliation of GAAP to non-GAAP Results (unaudited)." Please refer to the NXP Historic Financial Model file found on the Financial Information page of the Investor Relations section of our website at https://investors.nxp.com for additional information related to our rationale for using these non-GAAP financial measures, as well as the impact of these measures on the presentation of NXP's operations.

In addition to providing financial information on a basis consistent with GAAP, NXP also provides the following selected financial measures on a non-GAAP basis: (i) Gross profit, (ii) Gross margin, (iii) Research and development, (iv) Selling, general and administrative, (v) Amortization of acquisition-related intangible assets, (vi) Other income, (vii) Operating income (loss), (viii) Operating margin, (ix) Financial Income (expense), (x) Income tax benefit (provision), (xi) Results relating to equity-accounted investees, (xii) Net income (loss) attributable to stockholders, (xiii) Earnings per Share - Diluted, (xiv)

EBITDA, adjusted EBITDA and trailing 12 month adjusted EBITDA, and (xv) free cash flow, trailing 12 month free cash flow and trailing 12 month free cash flow as a percent of Revenue. The non-GAAP information excludes, where applicable, the amortization of acquisition related intangible assets, the purchase accounting effect on inventory and property, plant and equipment, merger related costs (including integration costs), certain items related to divestitures, share-based compensation expense, restructuring and asset impairment charges, extinguishment of debt, foreign exchange gains and losses, income tax effect on adjustments described above and results from equity-accounted investments.

The difference in the benefit (provision) for income taxes between our GAAP and non-GAAP results relates to the income tax effects of the GAAP to non-GAAP adjustments that we make and the income tax effect of any discrete items that occur in the interim period. Discrete items primarily relate to unexpected tax events that may occur as these amounts cannot be forecasted (e.g., the impact of changes in tax law and/or rates, changes in estimates or resolved tax audits relating to prior year tax provisions, the excess or deficit tax effects on share-based compensation, etc.).

#### **Conference Call and Webcast Information**

The company will host a conference call with the financial community on Tuesday, November 7, 2023 at 8:00 a.m. U.S. Eastern Daylight Time (EDT) to review the third quarter 2023 results in detail.

Interested parties may preregister to obtain a user-specific access code for the call here.

The call will be webcast and can be accessed from the NXP Investor Relations website at www.nxp.com. A replay of the call will be available on the NXP Investor Relations website within 24 hours of the actual call.

#### **About NXP Semiconductors**

NXP Semiconductors N.V. (NASDAQ: NXPI) brings together bright minds to create breakthrough technologies that make the connected world better, safer and more secure. As a world leader in secure connectivity solutions for embedded applications, NXP is pushing boundaries in the automotive, industrial & IoT, mobile, and communication infrastructure markets while delivering solutions that advance a more sustainable future. Built on more than 60 years of combined experience and expertise, the company has approximately 34,500 team members in more than 30 countries and posted revenue of \$13.21 billion in 2022. Find out more at www.nxp.com.

#### Forward-looking Statements

This document includes forward-looking statements which include statements regarding NXP's business strategy, financial condition, results of operations, market data, as well as any other statements which are not historical facts. By their nature, forward-looking statements are subject to numerous factors, risks and uncertainties that could cause actual outcomes and results to be materially different from those projected. These factors, risks and uncertainties include the following: market demand and semiconductor industry conditions; our ability to successfully introduce new technologies and products; the demand for the goods into which NXP's products are incorporated; trade disputes between the U.S. and China, potential increase of barriers to international trade and resulting disruptions to NXP's established supply chains; the impact of government actions and regulations, including restrictions on the export of US-regulated products and technology; the ability to generate sufficient cash, raise sufficient capital or refinance corporate debt at or before maturity to meet both NXP's debt service and research and development and capital investment requirements; our ability to accurately estimate demand and match our production capacity accordingly or obtain supplies from third-party producers to meet demand; our access to production capacity scordingly or obtain supplies from third-party producers to meet demand; our access to production capacity from third-party producers to meet demand; our access to production capacity accordingly or obtain supplies from third-party producers to meet demand; our access to production capacity accordingly or obtain supplies from third-party producers to meet demand; our access to production appacits produced to produce and producers and products are incorporated their particles. The product of the pr
